NEED HELP?

Restart your device, then try again from inside the lodge.

Checkout

Please leave Summit Hollow Lodge ready for the next mountain morning.

BY 10:00 AM

Gather personal items and place used towels in the laundry basket.

BEFORE YOU GO

Switch off lights, close windows, set the thermostat to 62 F, and check the refrigerator.

LAST STEP

Lock the front door and return the key to the small cedar key box.

House Rules

A few thoughtful habits help this fictional mountain retreat stay comfortable for every guest.

KEEP IT PEACEFUL

Quiet hours are 10:00 PM - 8:00 AM. Keep music and voices inside after dark, and do not host parties or events.

CARE FOR THE LODGE

No smoking or vaping indoors. Use coasters on wood surfaces, keep fires in the designated fire pit, and report damage promptly.

SHARE THE SPACE

Maximum overnight occupancy is six guests. Keep exterior doors closed, supervise children near the deck, and do not move indoor furniture outside.

BEFORE CHECKOUT

Bag food waste, load the dishwasher, and leave the home in the same calm condition in which you found it.

Parking

Please keep the drive clear for every arrival and emergency access.

WHERE TO PARK

Use the gravel pull-in beside the lodge for up to two vehicles.

KEEP CLEAR

Do not block the turnaround, the small red equipment shed, or the locked gate.

WINTER NOTE

In snow, park nose-out and keep a clear path from the vehicle to the front steps.

Trash and Recycling

Sorting a little as you go keeps the lodge clean and the mountain road uncluttered.

TRASH

Tie full kitchen and bathroom bags. Place them in the lidded black bin beside the mudroom.

RECYCLING

Rinse cans and bottles, then place them loose in the blue bin. Cardboard should be flattened.

PLEASE DO NOT

Leave food outside, place loose glass in the trash, or put hot ashes in either bin.

Quiet Hours

Help the valley stay still after dark.

10:00 PM - 8:00 AM

Keep voices, music, and outdoor activity low and close to the lodge.

THANK YOU

Your neighbors and early-rising hikers appreciate it.

No Smoking

For guest comfort and wildfire safety.

INDOORS

No smoking, vaping, or burning candles anywhere inside the lodge.

OUTSIDE

If you smoke outdoors, use a fully extinguished portable ash container and take it with you.

Pet Rules

Four-legged guests are welcome when these simple routines are followed.

INSIDE

Keep pets off beds and furniture. Bring a mat for wet paws and clean accidents promptly.

OUTSIDE

Pets must stay with you and on leash near the deck, driveway, and wooded edge.

LEAVING THE LODGE

Never leave a pet unattended in a vehicle or on the deck. Bag waste and place it in the black bin.

Hot Tub

Warm water, cool air, and a few important habits make the soak safer and more comfortable.

BEFORE ENTERING

Shower first, tie back long hair, and check the water line. Do not use the tub after drinking alcohol or if you feel unwell.

WHILE SOAKING

Stay hydrated, keep the cover folded away from the water, and limit each soak to 15 minutes. Children must have an attentive adult within arm reach.

KEEP IT CLEAN

No glass, food, bath oils, or bubble products. Use the steps and handrail, and keep the equipment panel closed.

WHEN FINISHED

Replace the cover, switch off the nearby light, and report cloudy water, unusual noise, or a low water level before using the tub again.

Thermostat

Comfortable temperatures help the lodge and its systems run well.

TYPICAL RANGE

Set between 66 F and 72 F while you are here.

PLEASE AVOID

Do not set below 60 F or above 78 F. Close doors and windows before adjusting.

Septic System

The lodge uses a small private septic system. What goes down the drain matters.

FLUSH ONLY

Toilet paper and human waste belong in the toilet. Never flush wipes, paper towels, tissues, cotton products, or medication.

KITCHEN AND BATH

Use the trash for grease, coffee grounds, food scraps, and cleaning wipes. Scrape plates before washing and keep drain strainers in place.

IF A DRAIN SLOWS

Stop running water and tell the owner using the contact details from your reservation. Do not pour chemical drain cleaner into any fixture.

SMALL REMINDER

Spread out showers and laundry when possible. A little care prevents a messy mountain-road service call.

Emergency Information

Keep calm, move to safety, and call for help when needed.

IMMEDIATE DANGER

Call 911. Give the fictional property name: Summit Hollow Lodge, Cedar Pass Road, mile marker 8.

LEAVE THE LODGE

Take your phone and keys. Exit through the front door or mudroom door, then gather at the gravel pull-in.

FIRE OR SMOKE

Sound the alarm, leave immediately, and do not re-enter. Use a fire extinguisher only if the fire is small and you have a clear exit.

WEATHER OR OUTAGE

Stay indoors away from windows during storms. Use flashlights, not candles, and keep the refrigerator closed during a power cut.
